

Course in Virology 2014

Monday 30 June - Wednesday 2 July

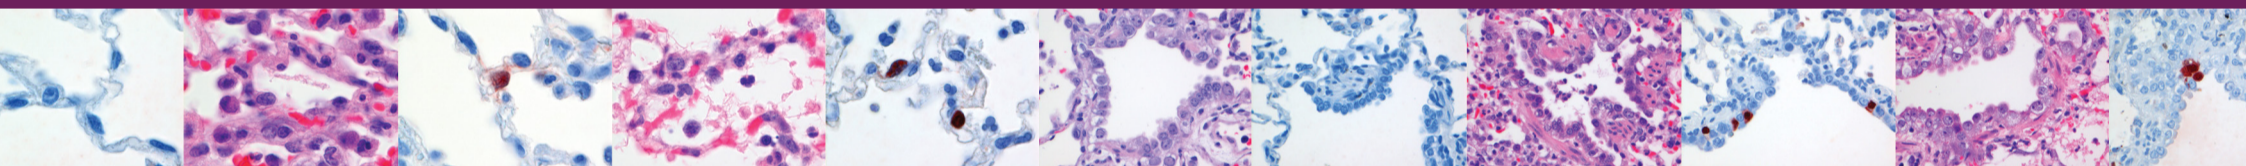

The department Viroscience of Erasmus MC organizes the Course in Virology every other year since 2002 under auspices of the Postgraduate School Molecular Medicine (MolMed). The course provides a comprehensive introduction to the field of fundamental and translational virus research.

The course in virology is organised for PhD students, post-docs and medical microbiologists, who are invited to participate. During the course, national and international experts in the field of virology will present seminars. Relevant literature will be made available at the start of the course.

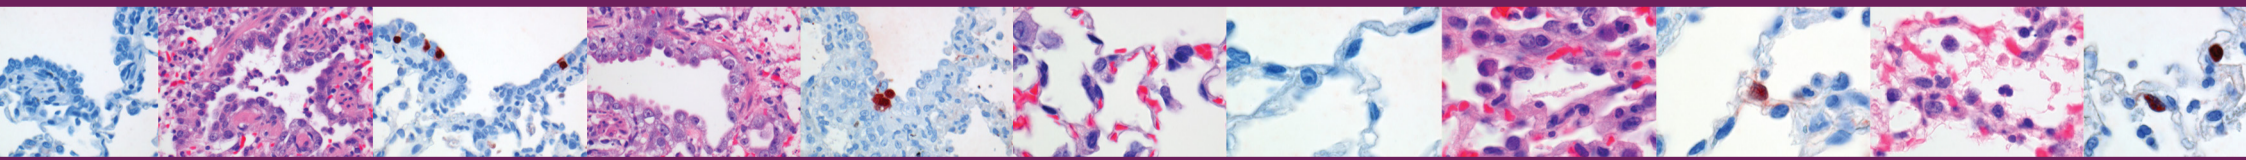

The topics covered in the course are:

Principles of Virology Plant virology Human viruses Invertebrate virology
Virus-host interactions Genetic modification of viruses
Pathogenesis of virus infections Antiviral treatment
Virus infections and mathematical modelling

Speakers, amongst others: Prof. A.D.M.E. Osterhaus, Prof. G.F. Rimmelzwaan, Prof. J. Vlak, Prof. C. Boucher, Prof. R.A.M. Fouchier, Prof. M. de Jong, Prof. G. Sutter, Prof. T. Kuiken, Prof. B. Berkhout, Prof. T. van Gelder, Dr. A. Andeweg, Dr. T. Jones, Dr. J van Lent, Dr. R. de Groot, Dr. R. de Swart, Dr. G. Verjans, S.D. Diepstraten-Pas, Msc., Dr. B. Martina, Dr. B. Haagmans, Dr. S. Herfst and many other experts in their field

Course fee for non-commercial participants € 600; discounts are possible.

Organizers: Guus Rimmelzwaan, Frank van Vliet, Marion Koopmans, and Ab Osterhaus
